DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: an internal segment of the telescoping handle. The claim positively recites a telescoping handle, but only claims an external segment of the handle. The internal segment is an essential element in a telescoping handle.

3. Claims 2-10 depend from rejected claim 1, and include all of the limitations thereof. For this reason, these claims are also rejected.

Allowable Subject Matter

4. Claims 11-46 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection. The amendments to independent claims 11 and 28 have overcome the prior art of record. A new grounds of rejection under section 112 2nd paragraph has been set forth in claim 1. The new grounds were not necessitated by applicant's amendment. For this reason, this Office action is non-final.
